

# Product Information

## Bluehide 130gm

### Description

Bluehide 130gsm is a fast drying satin coated blue-back paper for high resolution printing with solvent, eco-solvent, mildsolvent, UV and latex inks. A high quality paper which is specially designed for outdoor billboard applications. It also works perfectly in all kinds of wide format advertising. A water resistant structure enables it to be dipped into the glue for hours and then rolled or folded. A satin non-reflective surface gives this material the highest quality colour reproduction capacity.

### Composition

Media: 130g/m<sup>2</sup>

### Features

- Roll to roll applications
- Non-reflective satin finish media
- Excellent paper stability
- Fast drying capacity
- High quality resolution
