

Product Information

Bluehide 130gm

Description

Bluehide 130gsm is a fast drying satin coated blue-back paper for high resolution printing with solvent, eco-solvent, mild-solvent, UV and latex inks. A high quality paper which is specially designed for outdoor billboard applications. It also works perfectly in all kinds of wide format advertising. A water resistant structure enables it to be dipped into the glue for hours and then rolled or folded. A satin non-reflective surface gives this material the highest quality colour reproduction capacity.

Composition

Media: 130g/m²

Advantages

- Roll to roll applications
- Non-reflective satin finish media
- Excellent paper stability
- Fast drying capacity
- High quality resolution
- Water resistant
- Uses less ink
- Available in width up to 2m
