

Product Information

WOAF150 Backlit/Poster Paper

Description

Work Of Art Frame (WOAF 150g) is a satin coated backlit and billboard paper for high resolution prints with solvent, eco-solvent, mild-solvent, UV and latex inks. WOAF 150g is a high quality coated paper which is specially designed for light box applications as an economical and ecological alternative to backlit films. A special fibre formation and a non reflective effect enable this material to give the highest quality colour reproduction. WOAF 150g is also perfect for all indoor billboard applications.

Composition

Media: 150 g/m²
130 µm

Advantages

- Polyvalent media for poster and backlit applications
- Excellent paper stability
- Fast drying capacity
- High quality resolution
- Uses less ink
- Available in width up to 2m
- Compatible for solvent, eco-solvent, mild-solvent, UV and latex inks
- HP Latex Certified.
